Tasks left to do

- 1) Design intro page
- 2) Code/design filtering system
- 3) Make clickable links
- 4) Make templates available to the public to fill out & add to website
- 5) Make more color combos of the profile
- 6) Start filling out the templates!

This is actually a humungous project & I will have to finish over the summer. Even just drawing the templates took many hrs & drafts before I landed on something I liked. I will send it to you once I'm finished!
